ABOUT US

HAGLER is a process equipment distributor that specializes in the sizing and selecting of Industrial Pumping Equipment.

Since our founding in 1997, we have used our experience and expertise to ensure that the right pump or piece of equipment is selected for the given application throughout the State of Tennessee.

We believe being customer focused, innovative, and efficient in our day-to-day operations is how we can provide a superior level of customer service.

We believe training is essential to our own and our customers’ success.

We believe in representing only the highest quality products on the market.

Our experienced team is prepared to work with engineers, maintenance, operations and any others who need assistance with their pumping or process equipment needs.

Frame Mounted and Close Coupled Centrifugal
Market: General Industrial
Features:
• Competitive Cost
• Short Lead Time
• Easy to Maintain

Plunger and Diaphragm Metering Pumps
Market: Chemical
Features:
• PTFE Diaphragm with 2 Year Warranty
• 316SS and PVC Pump Head Materials
• Stroke Control

Small Centrifugal and Regenerative Turbine Pumps
Market: General Industrial
Features:
• Inconel Turbine Blades
• 316 SS Option
• In Stock at Hagler & Associates

Self-Priming Pumps
Market: General Industrial
Features:
• Flows up to 4,400 GPM and Head to 184 Feet
• Handles Spherical Solids up to 3 in.
• Close Coupled and Frame Mounted Options

Dean Pump Brand
High Temperature Centrifugal Pump
Markets: Chemical, Thermal Fluids
Features:
• Air Cooled Pumps up to 650F
• Flows up to 6500 GPM and Heads to 800 Ft
• Pumping temperatures to 850F

Bran+Luebbe®
Plunger and Diaphragm Metering Pumps
Market: Chemical
Features:
• PTFE Diaphragm with 2 Year Warranty
• 316SS and PVC Pump Head Materials
• Stroke Control

Burks®
Small Centrifugal and Regenerative Turbine Pumps
Market: General Industrial
Features:
• Inconel Turbine Blades
• 316 SS Option
• In Stock at Hagler & Associates

Deming®
Centrifugal Pumps
Market: General Industrial
Features:
• Various types of Centrifugal Pumps, such as:
  • Horizontal End Suction
  • Split Case
  • Vertical Dry Pit
  • Column Sump
  • And More....

Fairbanks Morse
Large Flow Centrifugal Pumps
Markets: Power Generation, General Industrial
Features:
• Vertical Turbine and Horizontal Split Case pumps
  • Flows up to 66,000 GPM
  • Heads up to 890 Ft
• Variety of Materials Options
• Ability to Customize Pumps
Triple Screw Pumps
Markets: General Industrial
Features:
- Good for medium pressure, high flow of clean fluids
- Meets API 676
- Can be modified to meet customer’s requirements
  spx.com/en/plenty/

Seal-less Canned Motor Pumps
Markets: Chemical, Thermal Fluids, General Industrial
Features:
- Free Training, System Analyses, and Field Support
- Full API Compliance
- High level of reliability and fluid containment for hazardous, expensive and environmentally sensitive fluids
  chempump.com

External Circumferential Piston and Rotary Lobe Pumps
Markets: Automotive, Pulp & Paper, Chemical, Power Generation
Features:
- Standard Stainless Steel Construction
- Maximum Efficiencies for Viscous Fluids
- Variety of Fluid Sealing Options
  gowcb.com

Dynamically Sealed Centrifugal
Markets: Chemical, Pulp & Paper, Power Generation
Features:
- Dynamic Seals
- Standard CD4 Construction
- Variety of Materials for Corrosive, Abrasive, and Slurry Applications
  wilfley.com

ANSI Centrifugal and Vertical Cantilever Pumps
Markets: Automotive, Chemical, General Industrial
Features:
- ANSI B73.1 Horizontal End Suction
- Heavy Duty Vertical Cantilever Pumps with:
  - Flows up to 4,000 GPM
  - Heads to 275 Ft
- Variety of pumps and materials available
  gusher.com

Johnson Pump®
Internal Gear and High Temperature Centrifugal Pumps
Markets: Chemical, Thermal Fluids, General Industrial
Features:
- Non-Cooled Centrifugal Pumping Temperatures to 650F
- Gear pumps available in 316SS and Steel
- Provide reliability in a wide range of applications
  spx.com/en/johnson-pump/

Liquiflo®
External Gear Chemical Metering Pumps
Markets: Chemical
Features:
- 316SS and Alloy-C Standard Materials
- Mag-Drive and Sealed Options
- Offers an Air-Barrier Sealed Centrifugal Pump
  liquiflo.com

Centrifugal Pumps Designed for Abrasive Slurry Applications
Markets: Chemical, Automotive, Thermal Fluids
Features:
- Cantilever pump has no bearings, bushings, seals, or rubber parts below mounting plate
- Wide variety of metals to handle abrasive and corrosive materials
- Ability to Customize Pumps

Controls & Process Equipment

Flo-Tite
With an inventory of carbon, stainless steel and alloy 20 valves, Flo-Tite has the ability to custom design valves to adhere to ANSI/ASME/ISO/NACE and API standards.
flotite.com

Future Design Controls
For the industrial, medical, and scientific machinery industries, Future Design Controls offers the most up-to-date microprocessor technology for custom temperature and process control.
futuredesigncontrols.com

Honeywell
Flame safety controls for industrial and commercial burner and boiler applications.
customer.honeywell.com

Iris
Flame Monitoring Systems, consisting of a Viewing Head or Flame Scanner and a Signal Processor used in the Petro-chemical, Pulp and Paper, Power Generation industries, as well as applications where the detection, monitoring and control of furnaces and boilers are required.
iris-systems.com

Partlow
With over 80 years of innovation, Partlow manufactures indicators, controllers, setpoint programmers and recorders which handle process variables such as temperature, pressure, level and flow.
flw.com/partlow/

West Control Solutions
Specialists in process and temperature control, West Control Solutions is anchored by four leading brands, CAL, Partlow, PMA and West Instruments covering various markets including Plastics, Ovens and Furnaces, Packaging, Food and Beverage and Life Science.
west-cs.com

Waukesha Cherry-Burrell
Waukesha Cherry-Burrell Scrape Surface Heat Exchangers designed for the sanitary and chemical industries where viscous and corrosive materials are handled.
spx.com/en/waukesha-cherry-burrell/pc-heat-exchangers

Maxon
Maxon industrial burners and combustion equipment includes gas burners, oil burners, gas valves, shut-off valves, flow control valves, and low NOx burners. Also offers custom burner management systems.
maxoncorp.com

Customer Honeywell
Flame Monitoring Systems, consisting of a Viewing Head or Flame Scanner and a Signal Processor used in the Petro-chemical, Pulp and Paper, Power Generation industries, as well as applications where the detection, monitoring and control of furnaces and boilers are required.
customer.honeywell.com
Hagler Systems offers a wide range of systems for the dredging and mining industries. Their experienced team of engineers can design anything from simple pump, motor and base assemblies to the most complex and large scale dredging and booster systems.

Hagler will design and build complete fluid handling systems; from simple pump, motor and baseplate assemblies to complete skid mounted or modular pumping systems where process equipment, wiring, instrumentation, piping, tanks, and PLC systems are required.

A global supplier and manufacturer of skid mounted process equipment to the pulp & paper, chemical, pharmaceutical and power industries.
SERVICE & REPAIR

Hagler’s pump service capabilities provide our customers with a true value added service. Our technicians are committed to providing the highest quality work and provide a root cause analysis to reduce equipment problems and/or failures in the future.

Pump Service Capabilities

- Certified Waukesha Repair Facility
- Horizontal End Suction Pumps
- Positive Displacement Pumps
- Vertical Multistage Pumps
- Canned Motor Pumps
- And many more...

Because HAGLER is dedicated to providing the highest level of service, we feel it is our responsibility to make our limitations known.

We Do Not Service

- Pumps containing hazardous materials, therefore decontamination is required prior to servicing
- Vertical Turbine Pumps
- Municipal Waste Pumps
